

**FORESIGHT
FACTORY**

Research Analyst

London Office

Foresight Factory is a leading consumer trends agency predicting a unique future for each client through first-class analytics, algorithms and human expertise.

Supported by our values of being predictive, bold, critical, genuine and empathetic, we like each day to be a little bit different. With offices in London, New York, Seattle, Singapore and Stockholm our culture, whilst hard-working, is relaxed, fun and sociable.

As we continue to grow it's our people that underpin everything we do. We'll always be more human than machine.

We are currently looking for a **Research Analyst** to join our Data Team to undertake advanced data and statistical analysis of complex UK and multi-country surveys. Data sits at the heart of everything we do and you will get to work on exciting and diverse research topics. You will also be encouraged to discuss ideas, share knowledge and identify new analysis opportunities for the company.

What will your day look like

- ▶ Working confidently with statistical programs and a range of statistical analysis techniques – including factor, regression, cluster and correspondence.
- ▶ Supporting our Consultancy and Client Teams with forecasting activities for client projects and analysis - applying relevant techniques and communicating the results clearly to both colleagues and clients.
- ▶ Immersion into our in-house data products to gain an exceptional understanding and then provide training for new and existing clients.
- ▶ Communicating forecasting techniques, statistical concepts and results to the company and to clients
- ▶ Ad hoc quantitative analysis as required.

What you'll get in return

- ▶ A salary tailored to your skills and experience
- ▶ Participation in the company wide bonus scheme
- ▶ Loads of holiday to take time out for yourself – 28 days plus public holidays.

- ▶ Flexibility with your working day
- ▶ After you've been with us for a while - season ticket loan, cycle to work scheme and work place pension.
- ▶ On-the-job training, invaluable hands-on experience and exposure to a variety of sectors, clients and exciting research projects.
- ▶ Fresh fruit, free lunches and all the tea and coffee you can drink.
- ▶ The opportunity to work and hang-out with a brilliantly talented, relaxed and sociable bunch of people in our spacious London office where everyday is dress down day.

What you'll need to have

- ▶ An applied Mathematics/Statistics degree or numerate Social Science degree (Economics, Sociology, Psychology etc.)
- ▶ Excellent numerical skills and written English
- ▶ Comprehensive knowledge of basic statistics
- ▶ An enthusiastic approach to problem solving as well as an ability to take the initiative
- ▶ IT skills should include PowerPoint, Excel and Word
- ▶ Team player with effective interpersonal skills
- ▶ Attention to detail and accuracy
- ▶ Keen interest in following current affairs

What we'd like you to have if possible

- ▶ Advanced Excel skills and a working knowledge of SPSS (or an equivalent statistical software package)
- ▶ Familiarity with VBA, SQL, Python or R, alongside a demonstrated interest in data science

If we sound like the kind of company you would like to work for then send your CV, a brief covering letter [telling us why you are interested in working with us] and your desired salary to careers@foresightfactory.co.

Closing date for applications 18th February 2019.
